=======================================
                 Question 01
=======================================
Top three products sold:
              Product_Line  Count
0      Fashion accessories    178
1       Food and beverages    174
2   Electronic accessories    170
```
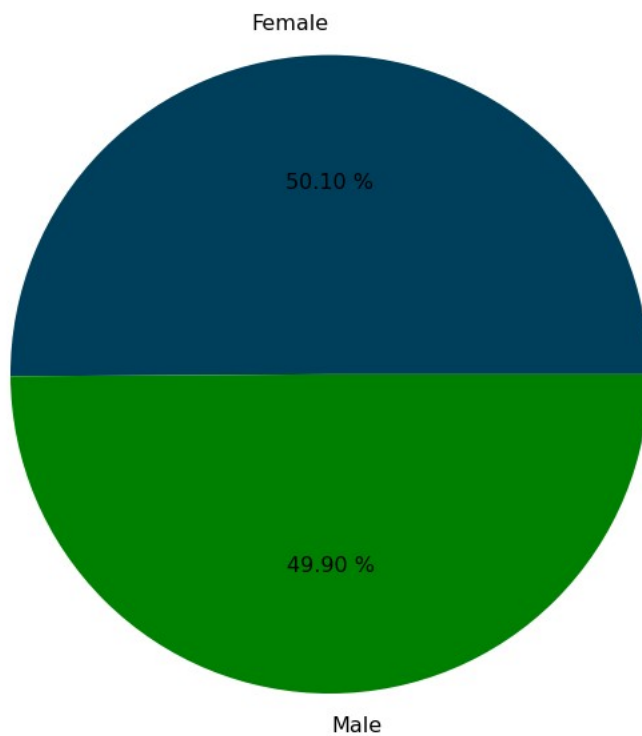

Top three products sold

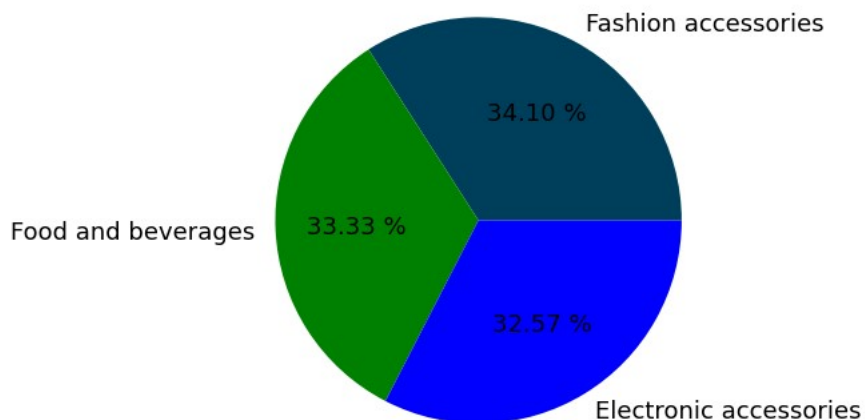

```
=======================================

=======================================
                 Question 02
=======================================
Who shops more male/female?
```

Pie chart to show the purchase %

Therefore the gender that shops more is:
```
   Gender  Count
0  Female    501
```
